Available on Google Play

# GATEWAY ULTRA

## HOW THE GATEWAY ULTRA WORKS (HOME MODULE)

Plug in the supplied Ethernet cable to a home router.

And then plug the other end of the Ethernet cable into the CMS™ Gateway Ultra Home Module.

Plug in the supplied power supply to wall power.

And then plug in the power supply into the CMS™ Gateway Ultra Home Module micro USB power port.

Stand next to your spa and ensure the power is on.

## SMALL AND INCONSPICUOUS

Ultra small and easy to hide near your router without losing the signal. No WiFi necessary. Uses only secure proprietary RF.

## DESIGNED TO WORK FOR ANY HOME

Just follow the instructions and let the Gateway Ultra go to work. Easily manage the setup with just a few quick taps.

## ULTRA EFFORTLESS

The Gateway Ultra works seamlessly with Balboa's powerful BP technology. Compact, reliable, and secure, the Gateway Ultra is simple to install and support.
